Democratic Thunder.

Hon. J. R. McConnell, of Los Angeles, on the 3d instant, introduced into the Assembly a series of resolutions, eleven in number, which contain more practical, undiluted Democracy than any document of the same length which has been aired for many a year. They were referred to the Committee on Federal Relations, and read as follows:

"WHEREAS, It is the right and duty of the Representatives of the people of a State of this Union, to keep a constant and vigilant watch upon the proceedings of the Federal Government; to see that it does not transcend the sphere of its legitimate powers; to reprehend its usurpations and endeavor to remedy its excesses. Therefore, by the General Assembly of the State of California, with the concurrence of the Senate, be it resolved:

1st. That, as admitted by statesmen and jurists of all parties and political creeds, the Government of the United States is one of granted and strictly limited powers; the measure of those powers being the letter of the Constitution beyond which the Government cannot lawfully pass, except to carry by means necessary to the end, the granted powers into execution.

2d. That among the primary maxims of free government none is more sacred than that every Legislative body has the exclusive right to judge of the election and qualifications of its own members; that this is especially the right of the Legislatures of the States of this Union; that this maxim has never, until recently, been violated, unless by despots claiming to rule by right divine; that the invasion of the halls of the Louisiana Legislature by an armed force under the directions of an officer of the U. S. Army, and the forcible ejection therefrom of several members of that body was a high-handed and lawless outrage; that while we have no terms of reprehension strong enough to characterize the crime of that officer, we deem those still more guilty who sent him to Louisiana upon a vague mission and with indefinite powers, and who afterwards sanctioned his worst acts.

3d. That the disclosures of the Credit Mobilier, Indian, District of Columbia, and Whisky "rings" demonstrate to the satisfaction of all men that the administration of the Federal Government is surrounded and influenced by corruption; that we therefore call upon Congress, as representing the States and people of this Union to spare no pains in the investigation of these matters, and to take steps for the punishment of the guilty, however high their position may be.

4th. That we pledge ourselves to the faithful maintenance of the Federal Constitution as it is; that we regard the 13th, 14th and 15th amendments as the necessary and legitimate results of the war and as permanent parts of the fundamental law—but that we are opposed to any further tampering or interference with the provisions of that instrument—believing as we do, that in its present form, it fully meets the requirements of the people and confers upon the Federal Government all the powers necessary for its successful administration.

5th. That we pledge ourselves, under all circumstances, to oppose the diversion of the School-Fund from its legitimate destination to purposes of sectarian education; that it would be wise for each of the several States to provide, by an amendment to its organic law, against any attempt at such diversion, but that the subject is one purely local in character, and should forever be so regarded; that, therefore, we earnestly deprecate every effort, come from what source it may, to thrust it into the arena of Federal politics, or make it the pretext of further curtailing the rightful powers of the States, by inserting it in the form of an amendment into the Federal Constitution.

6th. That as with the School Fund, so with the taxation of Church property; that such property should be subjected to taxation in all of the States, as it is by our own State Constitution; but that the question is one of State concern alone, with which the Federal Government has no right to interfere.

7th. That it is an essential feature in the theory of American institutions that all religious questions should forever be kept apart from the politics of the country and the administration of the laws; that we can conceive of nothing so fraught with danger to the peace and quiet of the country and the happiness and liberties of the people, as an alliance between religious passions and political opinions and interest, and that therefore it is the duty of every citizen to labor to prevent the coalition between them which we have every reason to believe will be attempted at the next Presidential election.

8th. That it is the paramount duty of the Federal Government to provide a safe and sound circulating medium for the people; that the common sense of mankind has long since determined that no material is so well fitted for the purposes of money as the precious metals; that a coinage from these metals is clearly intended by the Constitution when it confers on Congress the power to coin money and regulate its value; that that body has no constitutional power to make anything but gold and silver a legal tender; that the chief impediment to a return to a specie basis is the legal tender provision of February, 1862—a provision subsequently declared to be unconstitutional by its own author; that had the decision of the Supreme Court of the United States in Hepburn vs. Griswold, declaring that provision null and void been allowed to remain in force, we have every reason to believe that a sound currency would long since have been reëstablished, and that those and those only who rested not until by a reorganization of the Court they had obtained the reversal of that judgment, are responsible for the wretched financial condition of the country—flooded as it is, with irredeemable promises to pay, instead of lawful money.

9th. That the power to levy imposts is a revenue power only; that the perversion of it to the protection of special interests, and the industry of particular sections is repugnant to the Constitution, unjust, and fraught with oppression to the general industry of the land; that discriminating duties violates every sound principle of taxation by imposing upon the poor a burden equal to that borne by the rich consumer, and out of all proportion to the protection afforded him by Government; that for these reasons it is in the highest degree expedient that our Government should at once return to a system of *ad valorem* duties, and that they should be reduced to the lowest figure compatible with the necessities of Government.

10th. That our country owes its first duty to its own citizens; that the abolition of African slavery, at an enormous expenditure of blood and treasure, will scarcely compensate its cost, if its place is supplied by an Asiatic slavery, such as is well known to now exist in this State; that the result of Asiatic immigration to our shores has been to drive our own people from the fields of labor, and cut off immigration to the Pacific Coast by men of our own race; that this result is chiefly owing to the provisions of the Burlingame treaty and to the bounties paid to steamship lines running to the ports of China; that for these reasons we call for such modifications of the treaty referred to as will effectually discourage, rather than encourage, the continued immigration to our shores of Mongolian slaves and prostitutes; and that we earnestly deprecate and oppose any future bounty or subsidy to any line of steamers or other vessels intended to ply between the ports of this continent and those of China, India or Japan.

11th. That copies of these resolutions and of the accompanying report be transmitted to the President of the United States and each member of his Cabinet, to each of the Judges of the Supreme Court of the United States, to each of the Governors of the respective States, to the presiding officer of each House of Congress and to the representatives of the State of California in the two Houses of Congress, with instructions to our Senators and requests to our Representative in the Lower House that upon all occasions when the questions herein mentioned shall arise, they will vote in accordance with the spirit of these resolutions."

These resolutions have been flippantly characterized as "buncombe," by Radical journals, but they have "the true ring," and fulminate such Democratic thunder as is greatly calculated to arouse the masses of the people from the lethargy into which them seem to have fallen in regard to their constitutional rights, and the proper theory of sound republican government.—*Examiner.*

Hard Work in Youth.

Many young people are impatient of the hard work to be done as clerks, or in subordinate positions, and are eager to make fortunes without the long and painful toil which is essential to success. They may learn something from the experience of Vice-President Wilson. He says of himself:

I feel that I have a right to speak for toiling and to toiling men. I was born here in your county of Stratford. I was born in poverty; want sat by my cradle. I know what it is to ask a mother for bread when she has none to give. I left my home at ten years of age, and served an apprenticeship of eleven years, receiving a month's schooling each year, and at the end of eleven years of hard work, a yoke of oxen and six sheep, which brought me eighty-four dollars.

Eighty-four dollars for eleven years of hard toil!

I never spent the amount of one dollar of money, counting every penny, from the time I was born until I was twenty-one years of age. I know what it is to travel weary miles, and ask my fellow-men to give me leave to toil.

I remember that in October, 1833, I walked into your village from my native town, went through your mills seeking employment. If anybody had offered me nine dollars a month I should have accepted it gladly. I went to salmon Falls, I went to Dover, I went to Newmarket and tried to get work, without success, and returned home footsore and weary, but not discouraged.

I put my pack on my back and walked to where I now live in Massachusetts, a learned a mechanics trade. I know the hard lot that toiling men have to endure in this world, and every pulsation of my heart, every conviction of my judgment, every aspiration of my soul, puts me on the side of the toiling men of my country—aye, of all countries.

The first month I worked after I was twenty-one years of age, I went into the woods, drove team, cut mill logs and wood, rose in the morning before daylight, and worked hard until after dark at night, and I received the magnificent sum of sixty dollars! Each of these dollars looked as large to me as the moon looks to-night.

CRANBERRIES.—Land which was formerly worthless has been made more valuable than any other part of of the farm, in many sections, by introducing cranberry culture. It is therefore, a pertinent inquiry of every farmer: "Are there no swamps, or wet valleys, or brook borders upon your farm, now, perhaps, unsightly spots—wet swamps in winter, and pestiferous in summer? If you have such, plant them with cranberry vines, and tend them for one or two years till the vines get well set, and then they will tend themselves, and produce you on an average more bushels of fruit per acre than you will get of potatoes; and it is not much more work to gather them than it is the tubers, and generally speaking, you can sell a bushel of cranberries for the price of five bushels of patatoes." The cranberry will grow on almost any soil where the water is not more than a foot from the surface, yet experience has proved that the soil best adapted to them is nothing more nor less than the plain beach sand, entirely free from any matter, either animal or vegetable; in fact this berry may be said to live entirely on air and water. How to cook cranberries is an important question, if you are to get the best of them. They are sour, acrid, unpalatable and unwholesome in a raw state, and but little better as they are usually cooked. We have them hastily scalded, sweetened, and brought on the table floating in their juice, not one half of them cooked enough to burst the skin. Bah! what food! But how different when cooked! Put them, with only water enough to prevent burning, in a tinned sauce-pan, and stew until by stirring the whole becomes a homogeneous mass, with no resemblance of whole berries, and then add clarified syrup previously prepared, and stir a few minutes while boiling. When cold you have delicious cranberry jelly.—*Golden Rule.*

McDonald's Resolutions.

[From the Kern County Gazette.]

Last week we noticed the resolutions offered by Senator Morton in the United States Senate, defining the nature and powers of the General and State Governments, and their relative standing toward each other. The object was to bring up the questions involved for discussion, with the hope that it would involve the Democracy in trouble and perhaps place them in an awkward position before the country. We predicted then that Morton would fail in this, and that the Democracy would emerge from the contest strengthened by the onset. Since that time a series of resolutions which were to be offered by Senator McDonald, of Indiana, after the holidays, as a substitute for Morton's, have been foreshadowed. They have the true ring about them, and must commend themselves to favor with the intelligent men of the country.

The first resolution declares that "the people of the United States constitute a Nation, and are one people in the manner only, and to the extent provided for, in the Federal constitution and amendments." Since the United States owe their existence under one government, and the General Government all the power it possesses, to the Constitution, the proposition contained in Mr. McDonald's resolution cannot be shaken. The second resolution declares that the United States colonies declared and achieved their independence, and the Federal Constitution was formed and adopted by the several States formerly comprising the confederacy, called the United States of America, with the chief purpose to form a more perfect union, establish justice, insure domestic tranquility and provide for the common defense; and powers not delegated to the United States, nor prohibited by it to the States, were reserved to the States respectively and to the people. As this resolution follows the language of the Constitution very closely, it cannot well be gainsayed. Thirdly, that as the States were at the time of formation and adoption of the Federal Constitution, each sovereign, free and independent, except in so far as such sovereignty had been expressly delegated to Congress by the Articles of Confederation, the rights reserved to the States and the people in the formation of the Federal Government, were sovereign rights which cannot be impaired by usurpation; and the only safe rule by which to administer the Federal Government as to the rights of the States and the people, is by a strict construction of the Federal Constitution and amendments, and the assumption of no doubtful power. Fourthly, that in the formation of the Federal Government it was the clear design to have each State and the people thereof sovereign as to all matters of local or domestic concern, and to confer on the Federal Government sovereign powers as to such matters as might affect the general welfare of all the States, or as might be necessary to secure domestic tranquility, which powers are defined in the Federal Constitution and amendments. The people of the United States, therefore, from the nature and character of their Governments, State and National, and from their relation to each other, are not a national unity in the ordinary sense of the term. Lastly, that it being the design to make the Government formed under the Federal Constitution perpetual, the right of any State or number of States to secede from the Union was not reserved. So far as this right has been claimed to exist, it should be deemed forever settled against it by the results of the late war.

Simmered down, Mr. McDonald's resolutions amount to this: that the people of the United States constitute a "Nation" in a limited sense; that the Government of the United States is one of limited powers, that all the powers not delegated to it by the Federal Constitution, are reserved to the people, and to the States, and cannot be exercised by the General Government without usurpation; and that the only safe rule in administering the General Government is a strict construction of the Constitution; that the General Government is sovereign as to all the powers conferred upon it by the Constitution, and that the States are sovereign as to all the rights reserved to them, but that as it was the design to make the Federal Constitution perpetual, the right of secession was not reserved, and so far as the right has been claimed to exist, it should be deemed as forever settled against it by the results of the late war.

These resolutions embody the old Democratic idea of the nature and character of the Government with the right of secession as advocated by a portion of the party, in years gone by, eliminated. We apprehend that, when the issue is made, Mr. Morton will find that there are many thousands of old Democrats who have been cooperating with the Republican party since the secession of the Southern States, to whom the principles involved in these resolutions are as dear as ever. The fruit of the Republican doctrine has ripened into centralization with all its attendant evils, and the people see that the only hope of liberty, prosperity and happiness rests in local self government, in the State governments which deal directly with the life and property of the citizen. While they will jealously guard the rights of the Federal Government, they will insist upon preserving the rights of the States. We have no fear of the result of a debate in Congress upon these questions, and regard their revival at this time as rather fortunate than otherwise, as it will enable the Democratic party to clearly define its position and place itself right before the country.

BEAUTIFUL FLORAL ORNAMENT.—Take a soup-dish or a pickle-dish, and fill it with sand. Moisten the sand with water, and heap it to a cone, and then thrust into the wet sand flowers and foliage enough to cover the whole surface, and you will have, if you arrange it well, the most beautiful floral ornament that can be imagined. This is an excellent way for arranging short-stemmed flowers, or those the petals of which are too soft to be tied without injury among stiffer ones. Or place in the centre of your soup-plate a tea-cup, a child's mug, or a wine glass, in which insert a small bouquet, and then, filling the plate around it with sand, proceed as above. This will make a better cone than the first method.

The Centennial—Who and What Will be There.

On the 19th of last month the Finance Committee of the Centennial had a meeting, the Hon. John C. Bullett in the chair. The committee are a million and a half of dollars short of money, which it is supposed Congress will be likely to provide. The $5,187,750 already received came from the following sources: The city of Philadelphia $1,500,000; the commonwealth of Pennsylvania $1,000,000; New Jersey $100,000; Delaware, Connecticut and New Hampshire each $10,000; the city of Wilmington, Delaware $5,000; contributions $330,000; and stock sold $2,357,750.

These foreign nations have made absolute appropriations for their own displays; Japan, $600,000; Great Britain, with Australia and Canada, $250,000; Germany, $171,000; Spain, $150,000; Sweden, $125,000; France, with Algeria, $120,000; Itlay, $79,000; Austria, $75,000; Argentine Confederation, $60,000; Norway, $44,000; Belgium, $40,000; Denmark, $10,500, and Ecuador, $10,000.

Eleven nations have notified the government that they will erect their own exhibition buildings on the ground, viz: Great Britain and Japan, three buildings each; Egypt, Spain and Sweden, two each, and Australia, Brazil, Canada, Germany, Morocco and Turkey, one each.

The following States have also given notification and most of them selected the ground for the erection of their own buildings: Arkansas, Kansas, Illinois, Connecticut, Indiana, Iowa, Massachusetts, Michigan, Missouri, Minnesota, Nevada, New Jersey, New York, Ohio, Pennsylvania, Wisconsin and West Virginia.

The magnitude of the exhibition as compared with the previous ones of other nations can be judged from, say that of London in 1851, which covered but one-third of the ground and only cost $1,500,000; that of Paris in 1855, covering half the ground and costing $4,000,000; that of London in 1862, with less than half the ground and costing $2,300,000; that of Paris in 1867, with two-thirds of the ground and costing $4,600,000. The one in Vienna in 1873 only covered fifty acres against the Philadelphian sixty, but it costs nearly one-half more than ours is expected to cost. In close figures Vienna's costs $9,850,000 against our proposed expenditure of $6,725,000.

In addition, the following nations have given official notice that they will be represented, but whether any, or if any, what appropriations have been made by them is unknown, except the Netherlands says her Standthold will make the proper appropriations; the nations giving notification are Bolivia, Brazil, Columbia, Chili, China, Egypt, Guatemala, Hayti, Honduras, Hawaii, Liberia, Mexico, Nicaragua, Orange States (in Africa), Peru, Tunis, Salvador and Siam.

Though, as already shown, there will be much less money spent than at Vienna, all the evidences are that the display will be much greater, and the attributes more perfect, as our people have the experience of the exhibitions or expositions above referred to, as guides.

SCHENCK.—The N. Y. *Tribune* says: General Schenck may suffer from partisan and personal malice, but there is one respect in which his reputation can not be assailed—that of a careful, conscientious and indefatigable poker player. He has already laid a secure foundation for it in his little book on the subject, which was received with such favor on both sides of the Atlantic, but it has gained its permanent place by the incorporation of the argument of the work into Appletons' American Cyclopædia. The article on "Poker", first describes poker as it is used to be, and adds of "draw poker," the modern variety: "The manner of playing the game is substantially as follows in a pamphlet by General Robert C. Schenck, published in England." And then following a summary of that valuable text-book, occupying a page of the precious space of the Cyclopædia. And to think that this gifted gentleman, who used to be the friend of Trenor W. Park, and occupies a page of the American Cyclopædia, and the greatest living authority on "draw poker," is the envoy extraordinary and minister plenipotentiary of the United States at the Court of St. James! A proud thought that for the Centennial!

FRETTING.—One fretter can destroy the peace of a family, can disturb the harmony of a neighborhood, can unsettle the councils of cities and hinder the legislation of nations. He who frets is never the one who mends, who heals, who repairs evils; more, he discourages, enfeebles and too often disables those around him, who but for the gloom and depression of his company, would do good work and keep up brave cheer. The effect upon a sensitive person of the mere neighborhood of a fretter is indescribable. It is to the soul what a cold icy mist is to the body—more chilling than the bitterest storm. And when the fretter is one who is beloved, whose nearness of relation to us makes his fretting at the weather seem like a personal reproach to us, then the misery of it becomes indeed insupportable. Most men call fretting a minor fault—a foible, and not a vice. There is no vice except drunkenness which can so utterly destroy the peace, the happiness of a home.

TRICHINAE IN HARE.—The Napa *Reporter* states that Dr. Dozier, of that place has dissected and examined critically a number of hare killed in that vicinity, and has found that trichinae exists in all of them. This is a startling discovery, well calculated to cause nervousness on the part of those who sometimes eat the flesh of this little animal. It is stated that one man, who was found to have trichinae in his system, was successfully treated by Dr. Dozier. The Doctor should extend his investigations to the hogs with the view of ascertaining if they are effected also. It would be well for those who indulge in hare to have them thoroughly cooked. We believe that experience has shown in the East that boiling is the only method of cooking by which they can be effectually destroyed.

Friday, January 14th, 1876.

BANK STOCK.—The *Call* says that the Bank of California has advertised 3,600 shares of stock of that institution, to be sold by auction, to pay assessments, on the 26th of January.

STATE CERTIFICATES.—The State Board of Examination have granted R. P. Davidson of this place a first-grade certificate, and to E. W. Spring, also of Yolo county, one of second grade.

TO BE HANGED.—Edward S. Stokes, the murderer of Fisk in New York some two years ago, has been refused pardon by Gov. Tilden and will have to expiate his crime shortly upon the gallows.

RACE TO AUSTRALIA.—The Pacific Mail steamship City of San Francisco, in a race to Sydney with the Australian Steam Navigation Co's steamer Mikado, won in 27 days. The latter was 29 days from port to port.

NEW PATENTS. — Through Dewey & Co., Patent Agents, S. F., we receive the following advance list of U. S. Patents, granted to Pacific Coast inventors, viz: G. R. Cutbirth, S. F., padlock; W. Biddle, Corvallis, Oregon, boots and shoes; T. R. Lowe, Centerville, Cal., process of leveling land.

GOOD APPOINTMENT. — Dr. J. C. Shorb has been appointed by Governor Irwin as a member of the Board of Health in place of Dr. J. M. McNulty resigned. Dr. Shorb is fully competent to fill any position within the gift of the Governor, and he is a worthy gentleman and sound Democrat withal.

SINGER'S WILL.—The will of Isaac M. Singer, of sewing machine fame, who died last summer, has just been declared valid. By this will Mrs. Mathews, and her children, of San Francisco, will receive about a million and a half of dollars. The whole estate is estimated to be worth about thirteen million dollars.

A MIDWINTER LUXURY.—The Sacramento *Record-Union* has just been presented with a box of strawberries, as a sample of the fruit now growing on the premises of W. Coleman, Plymouth, Amador county. The berries are unusually large and fine-looking, and the vines as healthy and bright as at any season of the year.

NEW R. R. RUMOR.—The latest railroad rumor is that the Oregon railroad system is about to be transferred to the German bondholders, preparatory to another transfer by the latter to the Central Pacific Railroad Company, on condition that connection be made by rail between this State and Oregon. The Company now has surveying parties at work north of Reading.

INCREASING BUSINESS.—On account of the largely increased patronage of his new and popular house, Wm. Land, proprietor of the Western Hotel, Sacramento, finds his dining room not sufficiently large, and therefore proposes to immediately construct an addition, one story in height, on the east side of the hotel, which will give him the desired space, and afford facilities for the accommodation of any reasonable number of guests.

RETRENCHING.—There is a general disposition reported in Washington among representative men of the most important committees to cut down expenses in all directions, and there are so many opportunities for this that there is great consternation and opposition manifested by the Radicals in office, both civil and military. The desire of the people is that those who have the power to bring about reform in this direction should "slash away," and "lop off" every unnecessary expense possible, so as to relieve our overburdened and unnecessarily tax-ridden people.

SUSPENDED.—It is announced that the *Overland Monthly* has been suspended. This is much to be regretted, as it was an ably managed and an intrinsically good publication. The trouble seems to be that there is not sufficient population on this coast to afford the necessary patronage to sustain a work of that kind, and its publishers were not of the kind who "advance backward," but were continually improving the magazine. We are sorry to have to record the suspension of the *Overland*, but know its managers are not to blame.

CUBA. — It is said that President Grant will shortly recommend mediation in Cuban affairs, unless the war ceases, and that if mediation is rejected the United States will pursue its own policy, even at the cost of a war with Spain. All will agree that the Cuban rebellion is a deplorable affair, and the sympathies of Americans generally are with the Insurgents who are so bravely struggling to throw off the Spanish yoke. But there is no immediate need of intervention. The Monroe doctrine is a good one and ought to be carried out so far as it can be done legitimately, but there will be time enough for that hereafter. What Grant evidently wants just now is, to do something to popularize the close of his administration, so as to improve his chances for a third term as President of these United States; and that is just exactly what the people, his masters, do *not* want and will not have.

Our Sacramento Letter.

SACRAMENTO, Jan. 12th, 1876.

EDITOR DEMOCRAT:—If such a thing as a jam could occur in the stream of legislation it certainly ought to have occurred within a few days past, and the gorge of bills would have caused an overflow greater than any drift that ever floated down our mountain streams. During three days of last week there were introduced into the Assembly seventy-five bills, forty-six of them on general subjects and twenty-nine on local matters. The Senate has not had such a flood opened upon it, but has had a fair share of bills introduced. For example, Mr. Haymond, of Sacramento introduced ten bills in one day, the 10th instant. It looked as though he was busy the day before and had not attended church. The world is

GOVERNED TOO MUCH,

Is an axiom of political economy, that each subsequent generation's experience proves to be an absolute truism. That we of California legislate more than is good for the body politic, I think needs no more demonstration than can be found in our Statute books. This constant itching for

CHANGE

Certainly is not so healthful, as a more staid and satisfied temper of mind would be, more especially in the matter of laws. We scarcely get to know what our laws are before a change comes over the spirit of our legislators' dream and some new experiment must be tried. It appears that our

LEGISLATORS

Are more desirous of change than our people. To illustrate, the people have had Constitutional change after change offered for their suffrage, and they as often neglect to make any general expression at the ballot-box.

CONSTITUTIONAL AMENDMENTS

Are now the order of the hour. It would be difficult to tell how many persons have offered at the present session some amendment to the Constitution. This instrument, with a few changes in regard to our revenue laws, is well enough, and long years ago I was taught to "let well enough alone."

LAW MAKING

Is one of the few sciences that needs no education. To practice law one has to study for years, and after being admitted must study to render himself respectable in his profession; yet we find men from all the walks of life come into the Legislature and introduce bills upon all subjects without any previous preparation. I am induced to make these statements by observing the many foolish amendments offered to the Codes by persons of little or no experience as to the effects the laws they wish to amend have upon society.

THE SAN BERNARDINO BAR

Sent to Senator Satherwhite a well-digested memorial, asking that no changes be made upon our Codes unless a manifest necessity should be shown, and recommends that the District Judges of the State be requested to note those changes which the practice before them shows to be necessary, and send these to the law-making power for their information and guidance.

BRANCH PRISON.

Clunie, of Sacramento, has introduced a bill empowering the Governor, Lieutenant Governor and Secretary of State—that is, the State Prison Directors—to push forward the work at Folsom. They have power to estimate the implements and material on hand and draw the 20 per cent held back to insure the performance of the contract and pay to "the assignee in bankruptcy of the late contractor of said work for the benefit of his creditors the amount of said 20 per cent. which is $19,674." This bill will hardly pass.

RELIEF BILLS.

A long and somewhat able controversy arose on the bills for the relief of Green, late Controller, Malone, late Secretary of State, and Love, late Attorney General. It does seem to me that Laine was right in his argument, that making the Secretary of State a member of the Board of Equalization and giving him therefor a salary of one thousand dollars, is raising his salary. Haymond contended it was not his salary as Secretary of State but as a member of the Board of Equalization. It was so settled, and they all get their extra pay.

SALT MARSH AND TIDE LAND COMMISSIONERS.

This Board is about to be abolished, but just as Mr. Laine's bill abolishing and confirming their acts was in preparation to pass it was suggested that it might be well to have a committee appointed to investigated their acts, and this Committee are now making up their report. I learn they have not found much irregularity. It is best so. Our officers ought to be above suspicion.

HARBOR BILL.

This bill is to be acted on to-day and will perhaps create some discussion. Governor Booth vetoed a bill which was nearly in the same words except that the one he vetoed contained the clause that the two houses in joint convention should elect the commissioners, whilst this one gives the Governor the power to appoint and the Senate to confirm.

PILOT COMMISSIONERS.

The appointments made by the Governor are, with one exception, popular with the Senate. Two of them are practical pilots while the other is not. There may be some difficulty in securing the confirmation of the three, but I feel confident that there will be no schism between the Governor and the Senate on the matter. The former wants to do the best in his power and the Senate knows this.

GAS METRE.

The appointment of Harry George as Gas Metre Inspector for San Francisco was a decided hit. I am only sorry that this office does not pay more than it is said to pay. George has been faithful, is full of energy, and deserves a good place. The office is one of small fees, and no one is compelled to employ him.

ELECTION CONTEST.

The Committee on Elections made a report the other day confirming Montgomery in his seat, and reflecting most severely upon a party who purloined the ballots from the Clerk's office, scratched out the name of Montgomery and wrote that of Ward in its place. The Clerk of the Court is acquitted by the Committee of any knowledge or criminality in the matter, but the whole affair rests heavily upon Ward, by implication. The Committee recommend the matter to the attention of the Attorney-General.

COSTS ON TAX SUITS.

Mr. Pierson, of San Francisoo, introduced a bill to remit any and all costs on all tax suits where the taxes claimed did not exceed ten dollars. Laine jumped it as unconstitutional. But this was nonsense. The State, being a party, can remit the costs, but she becomes liable to the officers to whom the costs are due. The law was to take a retrospective effect. It was introduced because suits were brought in counties far distant, and it was said that often 50 cents, or even 40 cents, involved cost of many dollars. All agreed that it was an outrage on the poorer classes, but they feared to open the door so wide, and the bill was sent back to the Judiciary Committee.

PENAL CODE.

McGarvey attempted to strike out that part of the definition of grand larceny where it makes the stealing of horse, cow, mule, jack, jenny, calf, goat, sheep or pig, irrespective of its value, grand larceny. McGarvey and Lewis argued that the value of the property, and not the kind, ought to determine the grade of the offence. The Senate vote was very weak, there being 15 against and 12 in favor of the amendment. In a full Senate the bill would have carried.

CHINESE IMMIGRATION.

Senator Roach introduced a concurrent resolution asking our Representatives in Congress to have the treaty with China changed so as to discourage this kind of influx to our shores. The Senate passed the resolution yesterday with much unanimity.

WOMAN SUFFRAGE.

In the Assembly Mr. Young became the advocate to a certain extent of a petition he presented from the women of our State, asking that they be accorded the right of suffrage by simply striking out the word "male" where it occurs in the Constitution. They wish this question submitted to the people as an amendment to the Constitution. They urge it the more as this is our centennial year, and that we would but carry out the Declaration of Independence that all *men* are created equal. The petition comes from the Woman Suffrage Association of California.

MOUNTAIN DEBRIS.

A memorial of singular character was presented by Mr. Berry to the Assembly on the 8th. It recites that the damage done to the valleys by the miners is $6,350,000, besides embankments, $2,000,000, and winds up by asking our Representatives in Congress to have a law passed that no mineral land shall be disposed of by Congress for hydraulic mining. He also tells us the date when our rivers and bays will be filled up. It sounds like a joke now; time only will develop to a certainty.

ECONOMY.

This session is going to last as long as the constitutional limit permits. The people who expected a short session are going to be disappointed. There is much legislation cut out already, and much yet to be introduced. The most important measures of the session are yet in the back ground.

IRRIGATION

Is one of the most important measures and one that will require time and patient labor to digest, and yet it is one that the people expect in some shape from the hands of this Legislature.

RAILROADS.

The people expect something done in this direction. O'Conor has introduced a bill creating one Commissioner and making provision for obtaining information for future use, but our people will hardly be satisfied with this. They will expect more in the direction of preventing discrimination in freights and fares.

REDUCTION OF SALARIES.

The people not only expect all useless offices and sinecures of all kinds abolished, but they expect a reduction of salaries, and will be disappointed if they do not get it. I feel proud of the stand our Governor is taking, and believe he will carry out, as far as in his power, every promise he has made; that he will prevent the waste of public funds in his own particular department, and so far as he can, insist upon economy in all other branches.

This course will be the means of securing to us the State at another election. INDEX.

SECOND LETTER.

SACRAMENTO, Jan. 13th.

EDITOR DEMOCRAT: — I neglected noticing a warm debate of yesterday in the Assembly over the abolishing of the office of County Treasurer and allowing the funds of the county to be kept by the highest bidder. This is certainly a dangerous move. Archer and McConnell made unanswerable arguments against this bill, which Mr. Hart alone rested on the fact that he was elected upon this question. Well he might be elected if he could make his constituents believe that out of the funds collected for county expenditure the county could make their entire expenses, as he asserted on the Assembly floor. That is, that by speculation by banking and otherwise the county could make one hundred per cent. on the amount of taxes collected, for if they would clear the expense the original capital would remain untouched. This whole matter is a part and parcel of the spirit of wild and reckless speculations that is to-day doing more to injure the State and the United States than any other mania that broods over us. To-day it is a

STATE PRISON OFFENCE

To use, loan or deposit, except for safe keeping, the monies entrusted to the Treasurer. The term of penalty is from one to ten years. The lawmakers of the past were either great fools or those who passed this Hart bill on yesterday have made a horrible blunder. It will be killed in the Senate.

TIDE LAND BOARD.

The bill abolishing this Board passed, the clause confirming their acts being stricken off. This saves a clerk's fees of 3,000 dollars per annum.

PILOT COMMISSIONERS.

The action upon the appointees of the Governor was to have taken place at 12 o'clock to-day, but has this moment been postponed until Jan. 19th at 12 M. So we will not know who shall fall before the Senate until a week from to-day.

PEREMPTORY CHALLENGES.

A warm debate occured on making the peremtory challenges for the defendent when charged with murder, ten instead twelve as it now stands. This would leave ten for the State and ten for the prisoner. The motion to indefinetely postpone was lost and the bill ordered engrossed.

SOUTHERN RAIL ROAD RESOLUTION.

Referred to the judiciary Committee. This Concurrent Resolution simply asks that the land along the line where the road was to have gone be restored to the public domain.

INDEX.

Do Not Perceive the Point.

EDITOR DEMOCRAT:—The *Examiner* kindly noticed the little communication in your last issue by "A Subscriber," as follows:

"MISTAKEN.—A critical correspondent of THE YOLO DEMOCRAT, in commenting upon the Christmas sermon which appeared editorially in the *Examiner* of Christmas Eve, and especially upon our remarks as to the simplicity of the Gospel code of laws, and there being "no excuse for neglecting to live after their requirements,"—asks, if this is so, why "the fourth commandment is so (almost) universally disregarded?" We do not perceive the point the writer proposes to make, so far as we are concerned. In general terms, the violation of this, as of all other divine injunctions, may be traced to original sin, strengthened and developed by actual transgressions. If he means, however that the Sabbath is violated by the *Examiner* management, he is mistaken. The *Examiner* issues no Sunday edition. We recognize fully that Sunday, the most revered of all days, because it witnessed the resurrection of the Saviour, and the completion of the great work of man's redemption, infinitely beyond the creation of worlds and systems in importance, power and grandeur, is entitled to the observance and respect of all. It comes to all the people at its every advent, hallowed with the holiest memories and associations of the Christian life and history. And for eighteen hundred years and more, from the time the Apostles set it apart as the Christian Sabbath, in commemoration of the resurrection and the completed plan of salvation, its every occurrence has been hailed with joy by millions. In respect then to the sentiments of the Christian world—if from no higher motive, we should always commend a decent observance of Sunday."

The *Examiner* is very candid in saying "We do not perceive the point the writer proposes to make," but which it might have seen had the "commandment" been referred to, which says the "*seventh day* is the Sabbath," etc. Sunday was not referred to in my previous communication, but the Sabbath of the Bible. I do not wish to introduce a continued religious discussion in your paper, but would like to have the *Examiner* give its authority for saying the "Apostles set it [Sunday] apart as the Christian Sabbath." On the contrary, it is susceptible of the clearest proof that Christ, and the Apostles with and after Him, observed the seventh day as the Sabbath; and further, that the Bible Sabbath was strictly observed until long after their time—indeed that the change from the observance of the seventh to the first day was a gradual one and was finally brought about and enforced by the Papal power, for the purpose, as it claims to-day, of showing "the power of the Church." Pardon my trespass on your columns, and believe me, Yours for the Truth,

To all to whom these presents shall come, greeting:

Whereas, on the 8th day of December, A.D., 1875, "The Woodland, Clear Lake, and Humboldt Railroad Company" presented to Hon. J. A. HUTTON, the Judge of this Court, its Petition praying for the dissolution of said Corporation; and whereas the said Judge, on the 10th day of December, A.D. 1875, duly made an order that said petition be filed by the Clerk, and that notice of the same be given according to law; which said order recited that said petition was in conformity with the provisions of Title VI. of Part 3 of the Code of Civil Procedure.

Now, therefore, notice is hereby given that the said petition is now on file in the office of the Clerk of this Court; and all persons having any objections to the granting of the prayer of said petition are hereby required to present them in writing, and file the same with the Clerk of this Court, on or before MONDAY, THE SEVENTEENTH DAY OF JANUARY, A.D. 1876, or the same will be forever barred.

Witness my hand and the seal of said Court, this 15th day of December, A.D. 1875.

D. SCHINDLER, Clerk.

Letter from Winters.

WINTERS, YOLO COUNTY, Jan. 11th, 1876.

EDITOR DEMOCRAT:—Dear Sir: Our pulses beat happily under the spell of the season. The voice of complaint is unknown among our farmers, stock-growers, merchants, mechanics and fruit growers, and there is a smile of satisfaction expressed upon every movement of our countrymen who have toiled patiently along the thorny path of life, awaiting the prospective results of this eventful year.

We are enjoying a remarkable season peculiarly adapted to may-queens, husbandmen, stock-growers and every other veritable calling. Our fields are covered with a healthy growth of grain which is daily growing more rugged and beautiful, while choice beefsteaks and mutton chops might be selected from almost every band of cattle and sheep in the country. Nevertheless, with this cheering news we must not be over elated and confident at this early date; but with anything like a fair Spring we certainly will have a wonderful harvest.

TOWN TALK AND WINTERS ITEMS.

Winters glories in three large stores, three hotes, one grocery and vegetable store, one "Cheap John," two boarding houses, two drug stores, two harness shops, two shoe shops, one shoe store, one tin shop, three blacksmith shops,—two of which manufacture plows, wagons and carriages,—one paint shop, two livery stables, one butcher shop, two lumber yards, one ware house, two public halls, one live newspaper, Masonic hall, postoffice, school house, several rail road buildings, about sixty dwelling houses, and one little church nobly struggling against eleven saloons, three score and ten "dead-beats" besides the charred remains of several whiskey bummers and a very difficult count of integrals besides.

I understand that three thousand dollars were subscribed by ten of our citizens towards the building of a Presbyterian Church. Only fifteen hundred remains to be raised, which is a small amount for this thriving place.

Parties have been soliciting stock for the *Advocate*, hoping to make that paper a joint stock concern. The effort I believe was a failure.

Sackett's new hall was flooded and slightly damaged during the storm.

Saturday last was the Grangers installation day, which wound up with a feast. Nearly the same old officers were reëlected.

Bullet holes through the front doors and windows of a low dive on main street attract the attention of strangers.

One evening last week a woman set out on foot from this place to go to Enos' ranch, five miles in the mountains. When within about a mile from her place of destination it commenced to rain, and growing fearfully dark she became bewildered and lost, having to lie out all night and listen to the hooting of the owl and the insidious bark of the coyote.

Our school house having been built with an eye to the future growth of the town only about half of the rooms will be finished at present, as that will accommodate the children now in the district.

The roads around here may be described in this way: bad, worse, impassable. Well, it is true, and a lamentable fact, we have no roads, only by-ways, through fields, mud and slush. We justly complain, for our roads have been sadly neglected.

A few weeks since G. W. Scott, of Cottonwood, purchased a cosy cottage in Vacaville, where he has established his family for the purpose of sending his children to school. The family, comprising six or eight members, with but a single exception have been down with the typhoid fever. On Thursday last the remains of one of his daughters were brought up for burial, while as many as three more of the family now lie in a precarious condition.

Yours truly, ORLAND.

NOT VERY DESIRABLE.—We get northers here occasionally in summer time, which blow the dust about considerably, but nothing to compare with the following, as stated by an exchange: "A terrific sand storm, the like of which has never been witnessed in Visalia before, visited it on Thursday last. The wind blew a hurricane and the air was filled with sand and dust that penetrated every crack and cranny." This must have been rather rough on certain persons who left this balmy clime not long since to take up their abode in Visalia.

SPRUNG A LEAK.—Mr. Peek has been seriously bothered by a leak somewhere in the water mains which he has been trying for several days to find out. The tank at the Water Works, holding about 20,000 gallons, left full at night has been empty every morning. Consumers have also been somewhat inconveinced when they want to fill their kettles for breakfast. Efforts are being made to find the leak.

NEW YOLO MINING COMPANY.—The Yolo Consolidated Quicksilver Mining Company was incorporated January 8th with a capital stock of $10,000,000, to engage in and carry on the business of mining and milling ores containing cinnabar, in the Knoxville Mining District, Yolo County, California. The directors are Wm. T. Reynolds, F. H. Wells, Jas. Dods, E. W. Roberts and Edward Farnam.

Our Dixon Letter.

I. O. O. F.

A public installation of officers of Montezuma Lodge I. O. O. F., took place on Saturday, Jan. 7th, in the new Baptist Church. At one o'clock the order assembled at the hall and from there marched in file to the new church. Mr. Richardson, District Grand Master, of Vallejo, and Mr. Fox, Past Grand Master, of San Francisco, conducted the installation ceremonies. The following gentlemen were installed into their respective offices:

J. K. Vanzant, N. G.; W. C. Northcutt, V. G.; K. E. Kelly, Permanent Secretary; Charles Schirmer, Recording Secretary; J. W. Cotten, Treas.

HYACINTH REBEKAH LODGE NO. 26.

The following officers of this Lodge were also installed: B. Newell, N. G.; Mrs. A. Kerby, V. G.; J. K. Vanzant, Recording Sec.; Mrs. Rhodes, Treas. After the ceremonies they proceeded to the restaurant of Mrs. Peterson, where they partook of a splendid supper.

EXCHANGE OF PROPERTY.

Mr. John Cole has exchanged his property with Messrs. J. K. Vanzant & Bro., dealers in groceries, fruit etc., this place being a more suitable location for their business. We also understand that Mr. Beane intends to sell the property known as Beane's Hall.

INCORPORATION.

On the 17th day of January our citizens will hold a meeting at the public hall to discuss the Incorporation question, but we are afraid that they will meet with too much opposition, as a great many of our citizens are under the impression that it would tax the property too heavy. It is now an every-day topic.

FIRE COMPANY.

This Company will elect their officers for the coming term on Wednesday next. The Company owns a splendid Babcock fire engine, bought last fall at a cost of $1700, and a hook and ladder truck; you see that we are pretty well guarded against fire. The only trouble is that in case of fire it will be somewhat difficult for the company to get about with their engine and truck, as our streets are in a very deplorable condition.

Hoping that we will be able to send you a few items again at some future time, we will now conclude.

Respectfully yours, ROMAN.

HOUSEHOLD NOVELTIES.—The Excelsior Carpet Stretcher is one of the most useful and effective articles of modern times, and has been unanimously approved wherever used. The Combined Lamp Filler and Safety Tube is also an excellent arrangement that is highly valued by housekeepers. It facilitates and simplifies lamp filling and does away with the danger of explosion. The Empress Knife Polisher and the Oriental Polish are also very useful articles. I can supply any of these articles to at the Exchange Hotel. [14*2] J. A. FORD.

GRAND CONCERT.—We learn that Mrs. M. E. Edwards, M. A., teacher of vocal and instrumental music of Hesperian College, is preparing to give a concert on the evening of the 14th of February (St. Valentine's Day). The concert will consist of choice vocal and instrumental music by Mrs. Edwards and her pupils, and we expect will be one of the best musical treats with which a Woodland audience was ever favored.

ANOTHER COLLEGE.—An exchange says Professor Alexander Johnson, who was formerly connected with our College, but more recently with the Christian College at Santa Rosa, intends soon to build a college at Hollister 64 by 100 feet, and accommodating 50 boarders and 150 day students. The contract will be let at once and the building finished by July 1st.

TERRIBLE EARTHQUAKE.—News is just received, via New York, of an earthquake on the 4th of December, in Peru, South America, by which the city or town of Abancay was destroyed. In twenty-five hours thirty seven shocks occurred. A tidal wave inundated Valparaiso, where two lives were lost, $1,500,000 worth of property was destroyed.

TREES, SHRUBBERY AND FLOWERS. J. E. Card announces a stock of these articles on hand. Call and select. Now is the time to put out trees and shrubbery.

A SHEET AND PILLOW-CASE PARTY is to come off at Central Hall on the evening of February 22d.

R. A. M.—The following officers of Woodland Chapter No. 46 Royal Arch Masons were duly installed by installing officer Petrie, T. C. Peckman, High Priest; A. C. Kean, King; Jas. Viers, Scribe; J. K. Smith, Captain of the Host; J. L. Simpson, Principal Sojourner; N. Wykcoff, Royal Arch Captain; T. P. Magee, Master of 3d Vail; Fred. Miller, Master of 2d Vail; Thos. Ross, Master 1st Vail; J. D. Stephens, Treasurer; D. M. Burns, Secretary, and G. Rudolph, Sentinel. After the installation ceremonies a collation was spread which was enjoyed by the Companions their wives and lady friends.

Vacant Places

In the dental ranks will never occur if you are particular with your teeth, and cleanse them every day with that famous tooth-wash, SOZODONT. From youth to age it will keep the enamel spotless and unimpaired. The teeth of persons who use SOZODONT have a pearl-like whiteness, and the gums a roseate hue, while the breath is purified, and rendered sweet and fragrant. It is composed of rare antiseptic herbs, and is entirely free from the objectionable and injurious ingredients of Tooth Pastes, etc.

A NEW ART.—A new method of ornamenting has recently been introduced to the public called "Decalcomanie," or Transfer Pictures. It consists of instantly transferring pictures which have been printed on paper in colors, to any article one may wish to ornament. A large class of the designs, such as Flower and Fruit pieces, Autumn Leaves, Moss Rosebuds, Ferns, Vines, Antique Heads, Cupids, Emblems, Medallions, Landscapes, Animal Scenes, etc., are particularly sought after by ladies for ornamenting furniture, work-boxes, vases, lamp shades, flower pots, and articles of china, glass, wood, silk, ivory, marble, plated ware, tinware, leather, etc.

These pictures are designed by the most skillful European artists, and are printed on prepared paper in many colors and various designs; they may be instantly transferred to any article, so as to imitate the most beautiful painting. The directions for transferring are very plain, and the art is easily acquired, so that one may become an expert, even after a few hours practice.

By this process the cheapest articles are frequently ornamented with bits of landscape or floral decoration that could not be painted by hand without increasing the value of the article. The manufacturers of these pictures, Messrs. J. L. Patten & Co., 102 William street, New York, will send, post-paid, a book of 24 pages, giving full instructions in this delightful art, complete catalogue, and ten specimen pictures, on receipt of ten cents.

A Remedy that has made its Mark.

Success is the meed of excellence. The truth of this has never been more forcibly exemplified than by the triumphant career of Hostetter's Stomach Bitters. No sooner did the people discover the genuine merits of that supreme invigorant and corrective than they hastened to stamp it with the seal of popularity. The press and the medical profession speedily follow in the wake of the public, and emphatically endorsed it. Thus from the very outset the success of the Bitters as a remedy and preventive was an established fact, and a degree of popularity which it often takes proprietary medicines years to attain, was achieved almost at a stride by the then new preparation. Since that time every successive year has witnessed fresh accessions to the favors with which the Bitters were early regarded, and the area of its popularity is no longer confined to the United States, but includes the British Provinces in North America and the West Indies, South America, Mexico, portions of Europe and Australia. That it is not only a remedy for dyspepsia, constipation, billiousness, uninary and uterine complaints, nervousness and debility, but also a preventive of those maladies to which air and water, impregnated with miasma, give birth, has been nowhere so strongly evidenced as in those regions where climatic conditions unfavorable to health exist, and where the Bitters have been long and constantly tested. To call this superb cordial a remedy that has made its mark, cannot we think be regarded as boasting, since there is probably no proprietary remedy more widely known, universally respected and emphatically endorsed than these Bitters.

THE NATIONAL GOLD MEDAL was awarded to Bradley & Rulofson for the best Photographs in the United States, and the Vienna Medal for the best in the world. 429 Montgomery Street, San Francisco.

The new revenue steamer building at Mare Island is to be completed in two months.

Upwards of twenty inches of rain has fallen in Sutter Creek previous to this last storm.

Gov. Tilden, of New York, has declined to pardon Edward S. Stokes, who killed Fisk.

The steamer Flora has resumed her trade with Knights Landing, having been repaired.

Congress recently adopted a resolution against a Presidential third-term by a vote of 282 to 18.

To relieve the sick headache take a teaspoonful of finely powdered charcoal in a tumbler of water.

The latest information from Alexander H. Stephens says that his condition is more favorable and he is much improved.

All garments worn next the skin during the day should be removed at night, and spread out for thorough airing and drying.

Henry George has been appointed by Governor Irwin State Inspector of Gas Meters, and the Senate confirmed it unanimously.

San Jose does not owe a dollar. It has several fine school-houses, two engine houses and engines, besides other valuable property.

All the Churches invited to the Beecher and Moulton council have accepted, with some of the most celebrated clergy in the denomination.

Thirty-eight Christian young men of New York have joined the Israelitish Church in order to marry among the maidens of the chosen people.

A man named John Emerson went to San Francisco recently "to see the sights." He stayed on to the Barbary Coast and was robbed of $10,000.

A barge of wheat went to the bottom of the Sacramento river Saturday with three hundred tons of wheat on board for Messrs. Starr & Co., of Vallejo.

The passenger and freight depot of the Southern Pacific Railroad was entirely destroyed by fire at Hollister on the night of the 5th. Loss, $14,000.

The annual sale of pews took place in Plymouth Church Jan. 4th. The amount received for rental, with premiums, was $63,680 against $70,319 last year.

A lemon tree in Marysville, which bore a fine crop of lemons last year, has a crop of over 300 this season, which are a cross between an orange and a lemon.

Near Odessa, Saturday, a train of military recruits run off the track and got on fire. About sixty-eight were killed and fifty-four injured—several fatally.

The town council of Portland, N. B., has provided a small amount of work on the streets for the unemployed poor; about $1,600 to be thus expended; wages fifty cents per day.

To extinguish kerosene flames, fling a cloth over them, or, if the flour barrel is handier, throw on flour, which absorbs the fluid, kills the flames, and can be readily cleared up afterward.

The Chico *Enterprise* says: "The failure of Phillips & Chandler, cattle buyers, has been the cause of heavy loss to the farmers of Tehama county, as they hold their paper to the amount of $40,000."

At Columbus, Ohio, December 31st, an order was issued by the Chief of Police directing the closing of all places where games of chance are played for money, in violation of the law, from and after this date.

The new brandy distillery now being put up at Mr. Krug's by an Eastern party, will have capacity to make into brandy half the wine manufactured in the vicinity of St. Helena, viz: 300,000 gallons.

Manager Maguire has been arrested on the complaint of a colored man for refusing him admission to the seat in his theatre, for which said colored man had a ticket. Maguire gave bail in the sum of $1,000.

President Grant and Secretary Bristow have both been subpœnaed to give testimony in the St. Louis whiskey frauds. Rumor says that the President is to appear in the interest of his indicted Private Secretary.

The old bell which called together the Virginia Convention of 1774, in Richmond, when Patrick Henry uttered his stirring sentence, "Give me liberty, or give me death," is still in use in Martinsville in that State.

The Nez Perce Indians, a tribe having about 80 warriors, threaten to drive settlers from the Walla Walla Valley, in Oregon. Gen. Howard has ordered his company of cavalry from Walla Walla to protect the settlers.

The Board of Equalization of Sacramento county has reduced the assessments of the banks on solvent debts to $1,000 each, as follows: Capital Bank, from $350,500; Sacramento Savings Bank, $496,000; Sacramento Bank, $100,000.

The Suez Canal, about which there is so much talk in the diplomatic circles of Europe, since the acquisition by England of a controlling interest in it, originally cost about $95,000,000. Of this amount $30,000,000 was a subsidy from the Egyptian government.

On Saturday evening at San Francisco, the hall built by the fourteen Tribes of the Improved Order of Red Men in that city was formally dedicated in presence of an immense audience. The building is on Post street, opposite Union Square. It is 50 by 137 feet and four stories high.

In the District Court, at Sacramento, Dec. 31st, Judge Ramage fixed Feb. 25th for the execution of David Turley, convicted of the murder of David Shaw, at Roseville, in April last. It is stated that a petition will be shortly circulated to have the sentence commuted to imprisonment for life.

Advices of a terrible catastrophe on the Island of Reunion, of the Mascarene groupe, in the Indian ocean, has just been received. By the falling of an immense rock sixty-five persons were instantly killed, and at last accounts it was impossible to extricate some of the unfortunate victims, some of them being still alive.

An Oregon exchange says: "So far this has been one of the rainiest and warmest winters that has ever been known in this latitude. We have had a little snow but scarcely any frost. The snow did not lie on the ground only a few hours; it melted nearly as fast as it fell. The grass is green all over the country, and it is growing very fast.

Chas. Aull, Turnkey of the State Prison, gives the following recapitulation of prisoners at the State Prison for December. On hand, November 30th, 1875, 1,092; received during December, 41—total 1,133. Discharged under provisions of Act, 28; discharged by pardon 5; by death, 1; by order of Court, 6—total 40. On hand, December 31st, 1875, 1,093. Increase in December 1.

The combined capital of the Rothschilds is stated by Emile Burnouf, the well-known publicist, to have attained in the present year to the almost incalculable sum of seventeen billions of francs, or $3,400,000,000. M. Burnouf's opportunities of observation and temperate habit of speech invest his estimate with a certain authority, and probably justify us in accepting it as an approximation to the fact.

Col. Richard Henry Lee, who has been selected to read the Declaration of Independence at the opening of the Centennial exhibition, comes from good stock. He is a grandson of Richard Henry Lee of Revolutionary fame, a nephew of Charles Lee, who was Attorney-General of the United States during a part of Washington's administration, and of "Light Horse Harry Lee," and a cousin of the late General Robert E. Lee.

The receipts at San Francisco, by Wells, Fargo & Co's Express, in 1875, amounted to $21,447,048 in silver bullion, $8,516,527 in gold bullion, and $17,425,797 in coin; The total receipts through this agency for 1875 were $39,446,900, against $31,855,200 in 1873 and $33,845,740 for 1872. The amount for the past year is the largest in the history of the city, and due to the unpuckled development of the Consolidated Virginia mine.

The *Post* says we have 122 "ranches" containing 20,000 acres and upward each; 158 that contain from 10,000 to 20,000 each; and 286 containing from 5,000 to 10,000 each. The farms that range from 500 down to 100 acres each number 23,315. One hundred and twenty-two "ranches" take up over 2,440,000 acres! This sketch shows the various processes by which the monopolists manage to get possession and exclude actual settlers, or force them to pay extortionate prices for homes.

Just Received.

SOME OF THE FINEST CABINET

ORGANS

EVER BROUGHT TO THIS COAST.
NO MORE REEDY, HARSH TONES.

THE WARREN & CLOUGH
COMBINATION ORGAN.

New and Wonderful Invention.

The newly invented SCRIBNER PATENT "QUALIFYING TUBES," (Secured by letters patent in the United States, England and Canada.) An invention having a MOST IMPORTANT BEARING on the future reputation of Reed Instruments. By means of which the quantity or VOLUME of tone is VERY LARGELY INCREASED, and the QUALITY of tone rendered equal to that of the best Pipe Organs of the same capacity—thus furnishing all the desirable characteristics of the large Church Pipe Organ, in a case the size of an ordinary Cabinet or Parlor Organ, and at the moderate price of Reed Organs. By means of this invention, an Organ containing two sets of reeds becomes equal in volume and power, and VASTLY SUPERIOR IN QUALITY AND BRILLIANCY OF TONE to an ordinary Reed Organ of six or eight sets of reeds. One of the crowning features of this invention is the peculiar facility with which it adapts the tone of the instrument to ACCOMPANY THE VOICE IN SINGING, the effect upon both singer and listener being charming beyond description. This ingenious invention consists in the construction and application of tubes of wood or metal, placed so as to operate in connection with the reeds, each tube having an opening on the upper side at the rear end, through which the air, subsequently passing through the reed, enters, and through which the sound produced by the vibration of the reed escapes. The tubes inclosing the reeds of the treble are provided with adjustable valves or slides, over the mouth opening, by means of which the tubes may be tuned in unison with reeds, to produce a flute-like tone, such as found heretofore only in pipe Organs.

Can be seen and heard on the corner of Sixth and I streets, Sacramento.

HUGHLITT'S IVORY WHEAT!

80 TO 100 BUSHELS TO THE ACRE.

SOMETHING NEW.

Agents Make $5 to $10 a Day Selling this Wheat

Make Money and Benefit your Neighbors.

Agents Wanted Everywhere to sell Ivory Wheat.

Allow us to call your attention to this new kind of SPRING WHEAT that will yield from EIGHTY to ONE HUNDRED bushels to the Acre. This Wheat was imported from Africa, and has been grown in the United States with unparalleled success for two years.

The grain of this wheat is small, plump and heavy, of a whitish color, and weighs SEVENTY pounds to the measured bushel. Its growth is quite different from all other grades of wheat, one pint being sufficient to plant an acre. 100 grains of the seed is sufficient for a farmer to plant in order to obtain an abundance of seed for 20 to 40 acres the following year.

ITS GREAT VALUE CONSISTS

1. In its abundant yield.
2. In its flour qualities.
3. In the quality of bread made from its flour.
4. In its great yield of flour.
5. In the facility with which it is harvested.
6. In its making a good yield on any kind of land.
7. In its being of a very heavy nature, and not liable to rust.
8. In its being easily threshed on our common threshers.
9. In its retention of these properties through successive years of cultivation, and not "running out," as many new kinds do in America.

To any one desiring to act as AGENT we will send a sample package of 100 grains for $1; or 500 grains for $4, with circulars giving full directions as to time and manner of planting, cultivating, etc., (and terms to AGENTS) prepaid by mail.

Send money by Postoffice Order or Registered Letter. Address

PROCLAMATION.

CHICAGO AND NORTH-WESTERN RAILWAY.

THE POPULAR ROUTE OVERLAND.

Passengers for Chicago, Niagara Falls, Pittsburg, Philadelphia, Montreal, Quebec, New York, Boston, or any point East, should buy their

Transcontinental Tickets

VIA THE PIONEER ROUTE,

—THE—

CHICAGO AND NORTHWESTERN RAILWAY.

THIS IS THE BEST ROUTE EAST.

Its Track is of STEEL RAILS, and on it has been made the FASTEST time that has ever been MADE in this country. By this route passengers for points east of Chicago have choice of the following lines from Chicago:

BY THE PITTSBURG, FORT WAYNE AND CHICAGO AND PENNSYLVANIA RAILWAYS.

2 THROUGH TRAINS DAILY, with Pullman Palace Cars through to Philadelphia and New York on each train.

1 THROUGH TRAIN, with Pullman Palace Cars to Baltimore and Washington.

BY THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY AND CONNECTIONS (NEW YORK CENTRAL AND ERIE RAILROADS):

2 THROUGH TRAINS DAILY, with Palace Drawing Room and Silver Palace Sleeping Cars through to New York.

By THE MICHIGAN CENTRAL, GRAND TRUNK, GREAT WESTERN AND ERIE AND NEW YORK CENTRAL RAILWAYS:

2 THROUGH TRAINS, Pullman Palace Drawing Room and Sleeping Cars through to New York, to Niagara Falls, Buffalo, Rochester, or New York city.

BY BALTIMORE AND OHIO RAILROAD:

2 THROUGH TRAINS DAILY with Pullman Palace Cars for Newark, Zanesville, Wheeling, Washington and Baltimore without change.

This is the SHORTEST, BEST and only line running Pullman celebrated PALACE SLEEPING CARS AND COACHES, connecting with Union Pacific Railroad at OMAHA and from the WEST, via Grand Junction, Marshall, Cedar Rapids, Clinton, Sterling and Dixon, for CHICAGO AND THE EAST.

This popular route is unsurpassed for Speed, Comfort and Safety. The smooth, well-ballasted and perfect track of steel rails, the celebrated Pullman Palace Sleeping Cars, the perfect Telegraph System of moving trains, the regularity with which they run, the admirable arrangement for running through cars to Chicago from all points West, secure to passengers all the comforts in modern Railway traveling. No changes of Cars and no tedious delays at Ferries.

Passengers will find Tickets via this Favorite Route at the General Ticket Office of the Central Pacific Railroad, Sacramento.

Tickets for sale in all the Ticket Offices of the Central Pacific Railroad.

TOOK THE MEDAL

—AT THE—

STATE FAIR

WITH FOUR COMPETITORS.

SACRAMENTO, (Cal.), Sept. 14, '75.

This is to certify that the MATHUSHEK PIANOS we are using, and purchased of MR. COOPER, give good satisfaction, standing in tune and wearing remarkably well, and we are well pleased with them. We think they are good and honestly made, and deserve especial notice.

HERMON PERRY,
Prin. Sacramento Seminary.

ST. JOSEPH CONVENT, SISTERS OF MERCY, Sacramento.

We are using quite a number of the MATHUSHEK PIANOS, and consider them very superior instruments. They give very great satisfaction, and we wish that all our pianos were of the same make. We have tried the principal makers, and consider the Mathushek Piano superior for fullness of tone and durability. SISTERS OF MERCY.

[A CARD.]

This is to certify that I have sold large numbers of the MATHUSHEK PIANOS for over four years, and not one has ever failed. They keep in tune and wear better than all others, and exceed the expectations of purchasers, which has led to increase the demand for them. For information, call, and do not be led by interested parties to purchase certain Pianos you would soon after desire to change for Mathushek. They took the ONLY MEDAL at the State Fair, with four competitors. I have no idea of giving up the agency, as reported by interested parties. Hundreds have been sold, and I have numerous testimonials concerning their superiority, which I will show you with pleasure; many have been published heretofore. Call and see them.

JOHN F. COOPER.

Cabinet Organs of the best makers, and also some new cheap Pianos, from $300 up; a lot of second-hand Pianos. Pianos sold on installments, if desired. Pianos to Rent. Write or call on JOHN F. COOPER, corner Sixth and I streets, Sacramento. oc24
